

PARCEL VIDEO SEARCH

# Every parcel has a story. Find it on video.

Link your logistics scans to your camera footage.

[www.c-4-u.org](http://www.c-4-u.org)

#### THE CHALLENGE

# The proof is in your video.

Damaged, lost or disputed parcel:  
find the right moment, on the right  
camera, in seconds.

#### THE ANSWER

## Three steps, one answer

---

01

### Scan

Your scan stations record the exact time, the station and the data of every parcel.

---

02

### Search

Type or scan a parcel number, or pick a time range or a station.

---

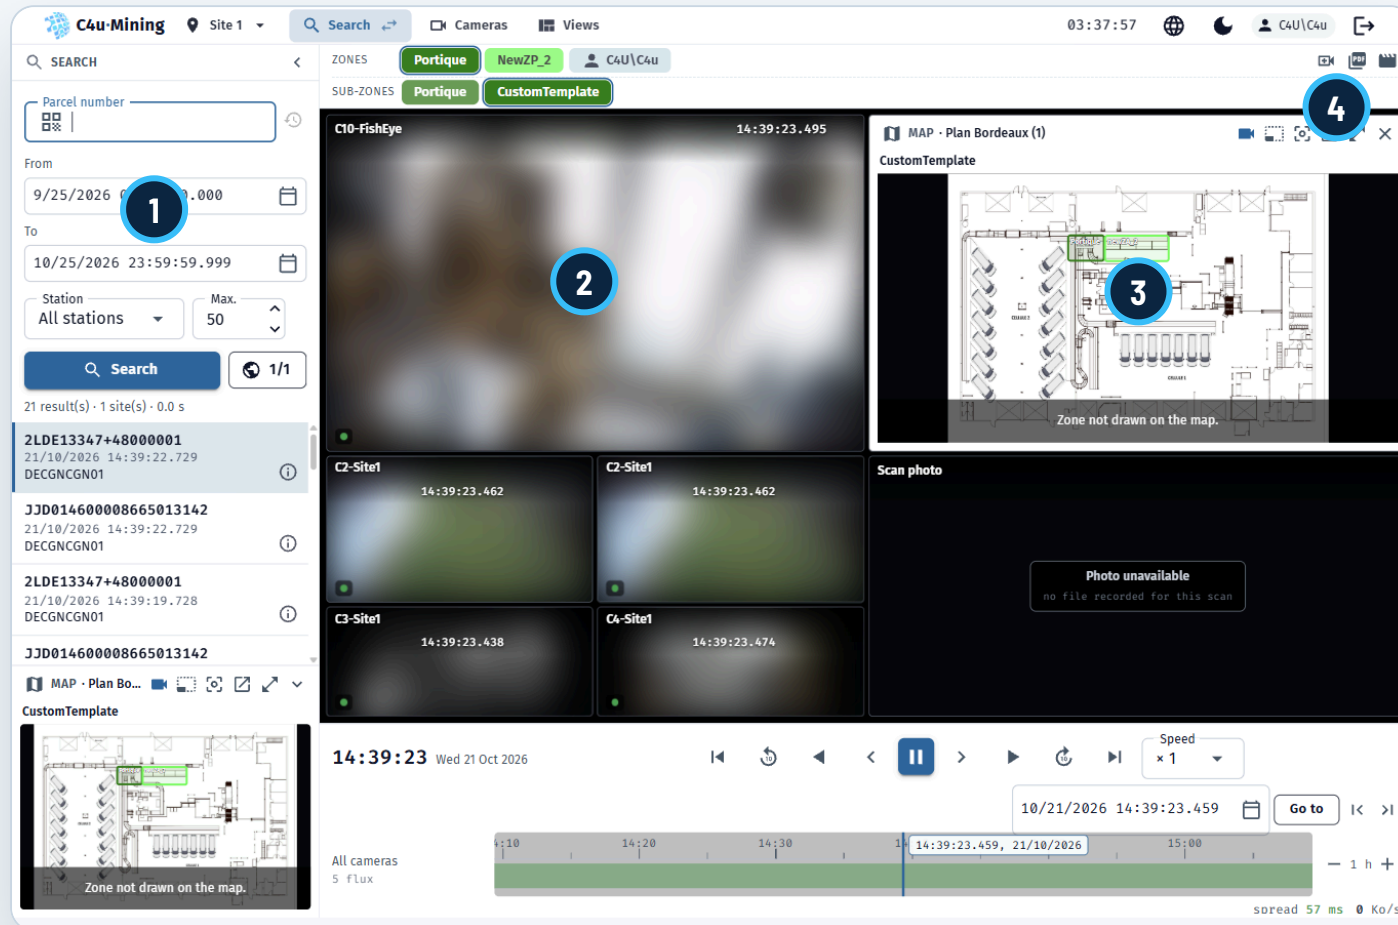

03

### Watch

Click the result: every camera in the zone jumps to the moment of the scan.

---

# One screen to investigate

Screenshot from a demonstration site

- 1 **Search**  
By parcel number, time range or station.
- 2 **Replay**  
Every camera in the zone, synchronised.
- 3 **Locate**  
Each camera and its field of view on the map.
- 4 **Export**  
The sequence as an MKV film, or the parcel PDF report.

## KEY FEATURES

# Everything to investigate, in a few clicks

### Search

By parcel, time range or station, across several sites at once.

### Replay

Frame by frame, in reverse, at the speed you choose.

### Check

Weight, dimensions and photos of every scan.

### Monitor

Your zones live, with automatic stream recovery.

### Build

Your video wall: cameras, scan photo, map or web page.

### Export

An MKV film with an intro clip, or the PDF report.

## 6 to 9 s

to export one minute of video\*

## 1 page

PDF report per parcel

## 100% web

on desktop, tablet or phone

\* Typical figure observed, excluding re-encoding.

## INTEGRATION

# Connect it to your video system

Link your sorting systems to your current video surveillance.

Milestone

**XProtect**

## USE IT EVERYWHERE

**Browser**

Desktop, tablet or  
phone

**Windows client**

For control rooms

**Smart Client**

A tab inside XProtect

## SECURITY

# Run it with peace of mind

- ✓ HTTPS and security headers
- ✓ Offline two-factor authentication (FreeOTP, tokens)
- ✓ Milestone, Windows or C4u accounts
- ✓ Role-based rights, including export
- ✓ Group managed service account (gMSA)
- ✓ Login and export history
- ✓ Automatic sign-out after inactivity
- ✓ Time monitoring of recorders and cameras

CONTACT

# Book your demo.

We prepare it on your own data, with your cameras.
